2 Evergreen Lane
Groveland, MA 01834

Dear Elaine and Anthony:

Re: Massachusetts Electric Company's (MECo) commitment to plantings for 2 Evergreen Lane, Groveland, MA

This is a follow up letter to a meeting Guy Shepard and John Upham had with you in late 2003. Guy and John met with you in order to discuss possible screening landscaping options which might be possible for your property in conjunction with our company's King Street project in Groveland which will include improvements to the 2373 line.

At the meeting, these following options were agreed upon and this letter is being sent to confirm MECo's commitment to provide and plant these following items in the spring of 2004:

- two flowering crabapple trees in pink
- four forsythia bushes
- one Japanese lilac bush
- two white pine trees
- three rhododendron bushes

Mr. Shepard will initiate these plantings this spring when the weather conditions naturally permit. If you have any questions regarding this, please feel free to contact us. I have recently taken John Upham's position on the substation planning team, so feel free to contact me at 508-357-4675. I'm sure Mr. Shepard would also avail himself for any questions or discussion. He can be reached at 978-725-1424.

Regards,

Sean Driscoll
